

General Information About Ordering PVC Jacketing

Points to Consider

Cook Brothers Insulation, Inc. stocks a large range of white PVC jacketing and related products from P.I.C. Plastics, Inc. P.I.C. Plastics does not charge extra for ordering colored PVC. Any order requesting colored PVC will take longer to produce. Colored PVC should be used indoors only.

PVC products offered by Cook Brothers Insulation are as follows:

1. Roll Stock that lays out curled (.020 and .030 mil.).
2. Flat Stock Rolls that lays out flat when unrolled (.020 and .030 mil).
3. White and Clear Adhesive are sold in quarts and gallons. One gallon of adhesive seals the lap joint of approximately 500 linear feet of Jacketing. Butt joints require more adhesive for larger diameters.
4. Thinner is sold in quarts.
5. **Note of Caution:** Adhesives and Thinners are Flammable Liquids and cannot be shipped by Air or Bus.
6. Applicator Guns used to apply adhesive.
7. PVC jacketing for pipe cover (Cut and Curled) is ordered by the O.D. of the insulation. The PVC jacket comes in .020 and .030 mil thickness and is sold in 4 foot lengths.
8. PVC factory applied to insulation comes in 3 foot lengths with a self sealing lap (SSL).
9. Jacketing for elbows, tees and caps is also ordered by the O.D. of the insulation. Jackets for fittings are .030 mil.
10. Cook Brothers has PVC for a variety of valves and valve shapes.
11. Rod Covers are sold in 4 foot lengths.
12. PVC for Angles and Moldings are sold in 8 foot lengths.
